

PURPOSE

History & Memory Knowledge

We recognize the urgency for Franciscan congregations to find permanent repositories for their archives that will safeguard the community's charism and legacy for future generations.

Services and Initiatives

*A sustainable, charism-based
collaborative repository

archival collections of
Franciscan entities
across the United States.*

Participation is open to Franciscan communities and organizations.

The Franciscan Central Archive

will be a physical center, following national archival standards, with a reading room, exhibition space, lecture hall, and robust virtual presence. Researchers will be able to study congregational ministries, shared vocations, and Franciscan charism across the collections. The FCA will be supported by charism-based educational programs and social engagement to ensure its members' legacies are carried into the future.

The FCA recognizes the value of processing and describing collections within their communities to document the provenance and intent, thus preserving integrity prior to moving the collections. This enables efficient access to collections so that the FCA can be responsive to its members.

GOALS
Preserve
Inform & Connect
Foster Collaboration
Engage & Inspire

Our Story: In 2017, Franciscan Federation President, Kathie Uhler, OSF, sent a letter to Third Order Regular USA leadership asking for discussion. This brought together a working group of archivists and leaders from interested communities to discern how best to ensure the future care of the congregations' archival collections and the Franciscan legacy they document through a charism-based collaborative. Those meetings led to the Franciscan Central Archive Initiative (FCA).

In 2023, the FCA hired archival consultant, Veronica Buchanan, with grant funding support from the Academy of American Franciscan History to perform onsite archival assessments and assist with strategic planning.

The FCA will continue to seek grant assistance. This will help provide support to prepare archival collections, project management, communications, development, and fundraising. New communities will have an opportunity to have their archive collections assessed.

The FCA will be an archive center that offers economy of scale, shared resources, professional interaction, and will be a central repository for Franciscan collections. The facility will meet professional standards for environmental control and have exhibition, meeting, and lecture spaces. It will be within reach of multiple universities and the two major airports.

The Board is pleased to announce that the FCA is purchasing land in Frankfort, Illinois, from the Franciscan Sisters of the Sacred Heart for its future archival center! 2026 will be a year of planning and start of the capital campaign. The goal will be to break ground as early as spring of 2027. We plan to open our archival center **by or before 2030.**
